Mac Will Show You How to Navigate The 7 C's

Complacency, that butcher of business, murderer of marriages, and killer of passion!

Communication, including how to listen in another person's language, and how to hear your own inner voice.

Character, the living expression of honor and integrity, grace and graciousness, persistence and resiliency, service and love, affirmation and discipline.

Commitment, deciding with certainty that you will find the way, (and get out of your own way in the process).

Courage, the backbone that comes with faith in yourself and the confidence to be both right and wrong, without fear.

Caring, the empathetic sense of value for others while simultaneously caring about yourself.

Change, the skills to flow with Life's progress and to release insecure allegiances to "the way things have always been".

"It's not what we don't know, that causes all the consternation, it's what we do know and don't practice that causes us problems."
